Computer(s) using the IP address identified on Exhibit A to the Complaint (“Exhibit A”) connected to Excipio’s investigative server in order to transmit a full copy, or a portion thereof, of the digital media file identified by the file hash value set forth on Exhibit A to the Complaint. At no point did Excipio distribute any part of Plaintiff’s copyrighted work. NARS is designed in such a way so that it is incapable of distributing any content.

12. The IP address, file hash value and hit date contained on Exhibit A correctly reflect what is contained in the evidence logs.

13. Our software analyzed each piece downloaded from the IP address identified on Exhibit A. Our software further verified that each piece was a portion of the digital media file identified by the file hash value as listed on Exhibit A.

14. Our software downloaded one or more pieces of each digital media file identified by the file hash value listed on Exhibit A from the IP address referenced on Exhibit A.

15. For each of the file hash values listed on Exhibit D to the Motion for Leave as being verified by Excipio, Excipio was provided with a control copy of Plaintiff’s original copyrighted work. Excipio reviewed the copyrighted work side-by-side with the corresponding digital media file identified by the file hash value set forth on Exhibit A. Excipio verified that each digital media file, as identified by the file hash value, is a copy of the original work that is identical, strikingly similar or substantially similar to the original work listed on Exhibit B to the Complaint.
